## Did you know?

☞ Children playing with fire start more than 95,000 fires each year, resulting in about 400 deaths and 3,000 injuries. Keep matches and lighters out of the reach of children.

FIREFLIES is a publication of the Seattle Fire Department. Your child receives four issues of FIREFLIES during the school year. FIREFLIES helps children learn how to be safe from fire and unintentional injuries. Help your child learn how to be safe by doing the activities in FIREFLIES with them, then review them often. Check out the resources below to extend the lessons

even further. And remember to be a good role model for safe behavior. Learning by example and by doing are two of the strongest ways we learn how to be safe.
